VeloBinder[®]

FOR A BETTER PRESENTATION!

Introducing the affordable, Celcast Personal VeloBinder.[®] The revolutionary personal-size binding system.

Proposals. Scrapbooks. Reports. Filing. In fact, paper projects of all kinds are the lifeblood of businesses, schools and home offices, so they demand the neatest, most professional look you can give them. That's why Velo-Bind[®] created the Personal VeloBinder[®] to put revolutionary binding technology at every desk – and within everyone's reach.

A totally unique system.

The Personal VeloBinder[®] evolved out of the exclusive Velo-Bind[®] method, proven in offices to be easy to use and incredibly effective. This new system includes a personal six-hole punch plus a variety of colour-coordinated binding strips and covers. In three quick steps it provides a professional looking, secure bind for 30 or more sheets, depending on paper thickness.

What's more, its neat, trim look is so superior, it makes loose leaf binders, spirals, tangs, even staples and paper clips seem outdated.

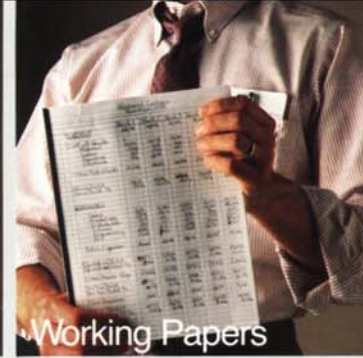

Easy to use and reuse.

The personal, professional touch.

The Personal VeloBinder[®] lets you choose from a variety of professional quality covers whose colour and texture will best match the tone of your document. Or, simply use binding strips without covers to fasten papers, making them easier to read, organize and file.

Easy to use and reuse.

Even with the secure bind the Personal VeloBinder[®] offers, adding or subtracting from any document is simple. Just straighten the pins with the VeloBender[®], make your changes and snap the pins back securely. No staple holes. No spirals to fool with. No clips or tangs to pry

back into place. No more cuts or broken fingernails.

No matter what the nature of your work, the Personal VeloBinder[®] helps papers compete for attention with an impressive look and a long-lasting bind.

Best of all, it's affordable enough to become your own personal binding system, with professional results right at your desk. *Ask to see a demonstration of the Personal VeloBinder[®] today.*

The list of uses goes on and on.

The Personal VeloBinder[®] replaces staples, paper clips, fasteners, loose leaf, spirals, clip and tang-type binders and covers. In fact, anywhere you want to organize paper, the Personal VeloBinder[®] is the way to do it.

Every desk, everywhere deserves a Personal VeloBinder[®]. It's the neatest thing that ever happened to paper.
